Professional Summary

Driven Computer Science undergraduate with hands-on experience in building AI-powered chatbot applications using LLM APIs. Skilled in developing FastAPI backends, integrating API keys, and designing conversational systems for calorie tracking, document-based question answering, and PDF summarization. Experienced in transforming unstructured data into structured JSON outputs and deploying practical, user-facing AI solutions.

Education

Class X, CBSE, St. Fransis De Sales School, JanakPuri, New Delhi	Percentage: 80.0%	2020 – 2021
Class XII, CBSE, St. Fransis De Sales School, JanakPuri, New Delhi	Percentage: 78.1%	2022 – 2023
Btech CSE, University Of Petroleum And Energy Studies, Dehradun	CGPA: 7.4	2023 –2027

Technical Skills

Programming Languages	Python, C++, HTML
Machine Learning & Data Science	TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib
Generative AI & NLP	HuggingFace, Transformers, LangChain, LLM’s, RAG Pipelines
Web & Deployment	Flask, Streamlit, FastAPI
Databases	MySQL , MongoDB
Cloud/DevOps & Tools	AWS (EC2, S3), Docker, Git, GitHub, VS Code, Jupyter Notebook

Internship

Navikenz India Pvt Ltd, Noida	Jun 2025 – Jul 2025
Data Science and AIML Intern — Duration: 8 Weeks	

- Developed backend services using FastAPI to support AI-powered chatbots and document-processing workflows
- Implemented PDF data extraction pipelines to convert unstructured documents into structured JSON outputs for downstream analysis

Projects

LLM-Based Chatbot Systems using APIs	Jun 2025 - Jul 2025
--------------------------------------	---------------------

- Tech Stack:** Python, FastAPI, LangChain, OpenAI/Gemini API, Streamlit
- Skills Learned:** REST APIs, prompt engineering, document processing, conversational workflows
- Built FastAPI-based chatbot applications using LLM APIs for conversational interaction and calorie tracking
 - Developed PDF-based chatbots enabling document upload, summarization, and context-aware question answering

HealthSync AI	Jan 2026
---------------	----------

- Tech Stack:** Python, FastAPI, LangChain, OpenAI/Gemini API, Streamlit
- Skills Learned:** API integration, conversational AI, backend development, prompt optimization
- Designed an AI-driven health assistant chatbot to support user interaction and health-related queries using LLM APIs
 - Implemented secure API key handling and optimized prompts to improve response accuracy and user engagement

Certifications & Accomplishments

- AWS Cloud Practitioner Essentials – Amazon Web Services (2025)
- Natural Language Processing with Transformers – HuggingFace (2025)
